FEATURED DATABASE: BIOGRAPHY IN CONTEXT

Virtually every course of study — from history to science to literature — is ultimately tied to the study of people. Biography in Context delivers nearly a million biographical entries spanning history and geography. In it you'll find:

- 600,000+ biographies covering more than 525,000 individuals
- 170+ award-winning Gale reference titles
- 50,000 new or updated bios added annually in addition to daily updates to account for awards and events
- Integrated reference material, periodical information and multimedia content

Access this database and many others for free at www.slolibrary.org/einfo.htm
